

SPENCER MOUNTAIN

TRAIL DESCRIPTIONS & RATINGS

The Freeride Trails are primarily designed for downhill mountain bike traffic. Looking for something different? The *Whitefish Trail* 8 mile North to South loop is great for hiking, horses, and cross country riders.

1 BIG GULPS, EH? ● WT

(Novice) Easy going multi-use 2-way flow trail

2 LOOKOUT TRAIL ●

(Novice) The way to access the upper Freeride Trails. Also the easiest way back down from the Spencer Summit.

3 CLIFF NOTES ■

(Intermediate) A mix of sculpted berms and rocky tech, with some optional challenges. An easier descent than Maple Syrup.

4 OTTER POP ■

(Intermediate) A fast, flowy trail with lots of jumps and berms. This is a good place to start if you want to play on jumps.

5 MAPLE SYRUP ◆

(Advanced) Natural rocky and rooty singletrack with some short steep sections that will be a challenge for intermediates.

6 FLOW FACTORY ◆

(Advanced) Jumps, berms, and drops to start, with a natural singletrack finish.

7 RECESS ◆◆

(Expert) A mix of technical rocky singletrack with some larger jumps and drops mixed in.

8 SPOOKY PETE'S ◆◆

(Expert) Steep, technical singletrack with some large features to keep things spicy.

9 MALICE IN PLUNDERLAND ◆◆

(Expert) Very large jumps and drops. This is the place to go if you like leaving the ground.

The Whitefish Trail
8 mile north-south loop comprised of single track and gated logging roads

DNRC Roads

Warning
Be aware of conditions

There are numerous unauthorized trails located in the Spencer Area. There are no guarantees as to the condition or existence of these trails. Use of these unauthorized trails require a MT State Lands Recreational Use Permit

Commercial horse operations are authorized by the DNRC to operate throughout Spencer Area.
